Abib 1 is not a designated Holy Day, but it is “New Year’s Day” in God’s Calendar and determines the dates of the Spring Holy Days. Abib 1 should be confirmed by observation of the crescent New Moon and the maturity of the barley the previous evening in Jerusalem. Dates in brackets are alternative dates if the New Moon is not seen on the expected date. Alternative months can occur if the barley harvest is early (E) or late (L). The first day and last day of Unleavened Bread and Pentecost are Annual Sabbaths.

People living east of Israel and west of the incorrectly positioned International Date Line should observe the following day for each of the above dates, including the weekly seventh-day Sabbath (See *The International Date Line and God’s Sabbaths* at <https://chcpublications.net/IDL-Sabbath.pdf>)

Trumpets, Atonement, the first day of Tabernacles and the Last Great Day are all Annual Sabbaths. Ethanin 1 should be confirmed by observation of the crescent New Moon the previous evening in Jerusalem. Dates in brackets are alternative dates if the New Moon is not seen on the expected date. Early or Late months are selected by when the barley will be ripe for the Wave Offering that year. People living east of Israel and west of the incorrectly positioned International Date Line should observe the following day for each of the above dates, including the weekly Sabbath. This delay allows the New Moon to be observed in Israel before the New Moon is ‘declared’ in these regions.

Dates of God's Holy Days to 2038

The above Tables, extracted from *God's Calendar and the Sign of Jonah* give the calculated dates for God's Holy Days from 2019 to 2038 CE. These calculations are secondary to actual observation of the New Moon and Abib barley near Jerusalem for each year.

The Holy Days begin at dusk on the previous evening and finish at dusk on the given dates in the Tables for Israel and countries to their west as far as the International Date Line (IDL). The Holy Days begin at dusk in Israel and move westward around the entire world with the dusk until it reaches Israel again, so NO countries begin their Holy Days before Israel. Man's incorrect placing of the IDL means that the Annual Holy Days and seventh-day Sabbath are observed most of a day later than Israel for countries west of the IDL and east of Israel when using conventional IDL-based time zones and dates.

Jeshua's new Covenant replaced the animal sacrifices with the sacrifice of Himself, and replaced the Levitical priesthood with the new priesthood consisting of all His followers, with Jeshua as our High Priest. The sacrifices were taken away, but the sacred times remained. The Levites offered sacrifices every day (Numbers 28:3-8), with special sacrifices on the weekly Sabbath (Numbers 28:9-10) and on the annual Sabbaths (Leviticus 23). These were all replaced by Jeshua's one sacrifice (Hebrews 4:1 to 10:39).

In a similar manner, the ministry of death for sin that was part of the Instructions for those governing Israel has been replaced by the ministry of Mercy: calling sinners to repentance, forgiveness and a new life of righteousness as servants, friends, siblings—and eventually spouses—of the Messiah (John 13:16, John 15:15, Mat 25:44, Rom 8:15-19, 2Co 11:2 & Rev 19:1-9).
